

TRENTE-DEUX COLLECTION

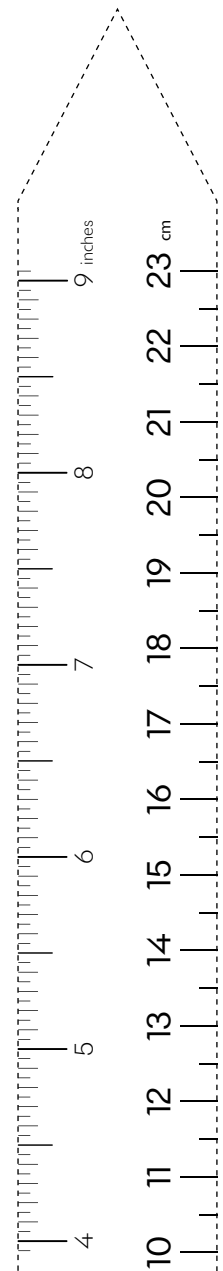

METAL BRACELET ADJUSTMENT GUIDE

1. Print this guide on A4 paper at 100 % scale.

You can place a credit card in the rectangle below to verify the accuracy of the printed dimensions. If the card's length matches that of the rectangle, the scale is correct.

2. Carefully cut out the measuring tape on the right.
3. Wrap the measuring tape around your wrist to measure its size. We recommend taking the measurement at the spot where you usually wear your watch.
4. The number indicated by the marks corresponds to your wrist size, expressed either in centimeters or inches. Please provide this measurement to your authorized retailer or to our sales team.
